About BICES

Formerly established by the Machinery Ministry of China in 1989 and held every other year since then, Beijing International Construction Machinery Exhibition & Seminar (hereafter referred to as BICES) has grown from what was originally a domestic new products and new technology show to be one of leading international trade fairs for construction, building and mining machinery in Asia, with BICES 2017 having more than 1000 exhibitors from over 20 countries and regions.

Why to BICES

To explore the world's largest manufacturing base and market for construction, building and mining machinery with tremendous business opportunities await you there.

1

BICES is not only a show, but also a biennial industry event organized and participated by CCMA and members, which provide you the best opportunity to meet with the industry players.

2

With partnership and supports from world leading manufacturer's associations and active participation by user groups and trade organizations from neighbor countries, BICES now is a leading international trade show in Asia, which deserve your participation.

3

Variety of conferences and activities will be held to complement trade and business discussions, such as World Top 50 Forum, One Belt One Road Seminar.

4

Value Added Services for Attendees

Free online registration is available by simply logging on www.e-bices.org, which will save your registration and queuing time.

Invitation letter will be provided for free of charge against request for those who have processed on line registration.

BICES organizers provide reception services for group visitors from overseas countries. Please contact us in advance if you are going to organize a visitor group to BICES.

Multi choices of hotels will be recommended ranging from 3 stars to 5 stars with easy traffic leading to the exhibition venue.

How to BICES 2019

The venue is located just 7.5km away from Beijing International Airport, which allows those attendees who come to Beijing by air to reach the venue within 15 minutes by drive, meanwhile subway line 15 has a stop just outside the main gate of the venue, which provides easy and fast transportation between downtown and the venue, furthermore, all the 3 airport express roads will lead to the venue from Beijing city, so there are multi-ways for drivers to pick up to reach the venue by drive.

Welcome to Beijing

With more than 3000 years of recorded history, Beijing, capital of China, is the nation's political, cultural and educational center, and has rich places of historical interest, such as Forbidden City, Great Wall, and Summer Palace etc. Meanwhile, through the years' development, Beijing has become an international metropolis with many famous modern landscapes like Bird's Nest (Beijing Olympic Stadium), as well as with modern transportation system like high-speed rail. Welcome to Beijing to explore both business opportunity and an exciting trip !

BICES Enjoys the Best Exhibition Venue of North China — China New International Exhibition Center (Beijing)

Advanced Facility With Integrated Services

NBIEC consists of 8 indoor halls covering **106,000 m²** spaces under roof with modern show facilities and two pieces of out door spaces of **50,000m²**, such as meeting rooms, business center, customs center, inspection and logistics center, which provides integrated services to exhibitors

Diversified Events and Conferences

Development & Strategy

- Top 50 Summit of CE Industry
- China-Africa Construction Machinery Cooperation and Development Forum
- "B&R" International Cooperation Forum on Construction Machinery

Technology & Innovation

- Construction Machinery Emission Stage 4 Technology Forum
- Global Aerial Work Platform Summit — China Top 100 AWP Rental Company Award
- China CE Industry Standardization Conference

Concurrent Exhibition

- China International Emergency Rescue Equipment Exhibition
- China International Commercial Vehicle Exhibition

Organizers

CCMA

China Construction Machinery Association

CNCMC

China Construction Machinery Co. Ltd.

CCPIT-MSA

China Council for the Promotion of International Trade - Machinery Sub-Council

Exhibition Management Office

Beijing Asiamachine International Convention & Exhibition Ltd.

Exhibitors Comments

Congratulation to the great success of BICES 2017, and appreciate CCMA very much for building such a professional communication and show platform for all industry players.

We launched new generation of Cat smart excavators and showcased the world leading Cat equipment and solutions, and shared with visitors about the successful cases that Caterpillar achieved in supporting customers jointly with local dealers in the countries of one belt and one road region, which all were highly recognized by our customers and visitors, and hence achieved our show objectives.

We expect BICES to be more internationalized in the future, and play a greater role in the innovative and sustainable development of the global construction equipment industry. Thanks once again for all your attention and support given to BICES and Caterpillar!

Mr. Chen Qihua,
Vice President of Caterpillar Inc.
and Chairman of Caterpillar (China)

BICES 2017 showed a very positive development signal to the entire China construction machinery industry. According to our show statistics, the number of visitors, sales and intentional orders and customer satisfactory ratio that SANY received and gained at BICES 2017 were all much higher than the one of previous show, so we reached our show target.

We'd like to thank organizers of BICES for their great support given to SANY, and believe the following BICES will be more exciting, wish BICES all the best!

Mr. Zhao Hul,
Brand Director, SANY Group
